HASEEB FARRUKH

FULL Stack Developer

Dynamic and dedicated Web Developer with one plus year of industry experience, including six months as a MERN Stack Developer at NextPak Agile Solutions. Currently expanding my expertise at Devikons, working with Vue.js, Laravel, and MERN technologies. I excel in creating responsive web applications and am passionate about integrating new technologies to drive innovation. My hands-on experience enables me to understand the intricacies of building robust software solutions. I am committed to continuous learning and staying updated with the latest trends.

Work Experience

NEXTPAK AGILE SOLUTIONS

MERN Stack Developer (6 months)

During my time at nextPak Agile Solutions, I delved into MERN stack development, significantly contributing to innovative web solutions. Working with a dedicated team, I utilized MongoDB, Express.js, React.js, and Node.js to design intuitive interfaces, robust APIs, and efficient database structures. Rigorous testing and optimization ensured exceptional performance across platforms. This experience molded me into a skilled MERN Stack Developer, primed to thrive in the evolving digital landscape.

DEVIKONS

Full Stack Developer (current)

Currently at Devikons, I specialize in both front-end and back-end development, primarily using Vue.js and the MERN stack. I work closely with backend developers and designers to create engaging, responsive user interfaces. I have led projects developing the front-end with Vue.js or React.js and the backend with Node.js, Express.js, and MongoDB. Additionally, I have collaborated on projects using Laravel for backend development.

Projects

Portfolio

Developed and designed a personal portfolio website to showcase my skills as a Full stack developer. This platform not only exhibits a range of projects but also serves as a reflection of my dedication to creating modern, user-friendly web applications. Explore my portfolio for a firsthand look at my technical skills and innovative approach to web development.
