Projects

Portfolio

Developed and designed a personal portfolio website to showcase my skills as a Full stack developer. This platform not only exhibits a range of projects but also serves as a reflection of my dedication to creating modern, user-friendly web applications. Explore my portfolio for a firsthand look at my technical skills and innovative approach to web development.

Work Experience

MERN Stack Developer - Upwork

[August 2023] - [September 2023]

- Collaborated with a remote team on a full-stack Real Estate Management Platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Participated in regular team meetings, contributing to the project's development by implementing front-end functionalities using Reactjs
- Effectively communicated and collaborated with team members to troubleshoot issues and integrate individual components seamlessly.
- Demonstrated adaptability in a remote work setting, ensuring effective and timely delivery despite geographical disparities
