## Work Experience

### MERN Stack Developer - Upwork

[August 2023] - [September 2023]

- Collaborated with a remote team on a full-stack Real Estate Management Platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Participated in regular team meetings, contributing to the project's development by implementing front-end functionalities using Reactjs
- Effectively communicated and collaborated with team members to troubleshoot issues and integrate individual components seamlessly.
- Demonstrated adaptability in a remote work setting, ensuring effective and timely delivery despite geographical disparities
